

OSTEOLIFE

Institutional presentation

After it began its activity in the Argentine market, OSTEOLIFE S.R.L. is now an importing and distributing company of surgical implants that knew how to expand its borders, becoming one of the leading companies in the ORTHOPEDICS, TRAUMATOLOGY, NEUROSURGERY and THORACIC SURGERY fields.

For more than 12 years we have developed the specialization of trauma and thoracic bone surgery to its fullest extent. We currently have a staff of 95 highly trained employees, fully committed to the performance of their duties.

Throughout our history we have relied on the experience and values of our suppliers who have known how to maintain the highest standards of quality and services in their services. Constant academic and technological updates from foreign doctors allow us to give an agile, efficient and high-quality response, maintaining a balance in the quality-price equation.

Thanks to the increase in the market participation rate and the demand for professionalization in each area, we have diversified our company into different commercial departments, which in turn allows us to be more efficient in responding to the needs of our patients, medical professionals and health coverage:

- Spine and Neurosurgery
- Thorax
- Hip and knee
- Unconventional prostheses
- Osteosynthesis
- Arthroscopy
- Orthopaedic Laboratory (Commercial Office with Specialized Technicians)

CERTIFICATIONS

OSTEOLIFE S.R.L. is cleared and authorized by ANMAT as an importer and distributor of Medical Products according to provision No. 2319/02 (T.O.2004) and under provision MERCOSUR / GMC / RES N° 21/98. It also has exclusivity in the registry of the entire range of products of the companies it represents.

OSTEOLIFE

OSTEOLIFE S.R.L. has the permanent counselling of prestigious professionals in each of its specialization. Furthermore, its staff includes a team of technicians in surgical instrumentation that assists the medical professional in the operating room.

In addition, it has its own fleet of vehicles, which allows to ensure deliveries in a timely manner, providing the best comprehensive service ranging from consultation to post-sale.

The company is housed in a 1200m² building, divided into two floors and located in downtown Buenos Aires. There are storerooms specially designed to take care of the quality and health standards of the products to be sold. For this reason, we have separate areas for:

- Sterile materials
- Implants
- Sterilization
- Storage

Nowadays, our company has:

- Specific sectors for each pathology with their respective waiting rooms.
- Specialized technicians for each area.
- Its own workshops of: prosthetics, plasterwork, thermoplastics, saddlery, electronics, light and heavy mechanics, shoemaking and high definition cosmoses; each with highly qualified personnel.
 - Sale of a wide line of orthopaedic equipment for different complexities, including electrophysiological orthopaedic equipment.
 - Post-sale service and training for patients with different pathologies.
 - Attention and delivery of other orthopaedic elements in specialized health centres before the requesting doctors.
 - Its own offices for taking measurements, testing, training and adapting both prostheses and orthotics.
